

Town Report from Michele Lindsay

September BOT Meeting 2021

Good evening,

Related Company will be giving a much-anticipated presentation on the Tuxedo Farms project on Monday, September 27 during the Town Board meeting. Please encourage residents to join. This project will have the greatest impact on the future of both the Town and Village.

Related Company anticipates that they will complete the new sewer plant by December. The Tuxedo Farms Local Development Corporation is closing monitoring its progress and will hold public meetings this fall. Twenty residences in the Village are in the Hamlet Sewer District which will switch to the new plant.

The Town has decided to postpone Tuxedo Family Day due to the increase in covid cases locally and regionally. A new date will be posted as soon as possible.

Respectfully submitted,
Michele Lindsay
Deputy Supervisor
Town of Tuxedo
