

Rescue Task Force Seminar: 4/26 at 7:00 PM, Tuxedo High School.

If you are an area First Responder, you are urged to attend!

RTF is the unified response by Police, Fire and EMS when mitigating an Active Shooter event or another incident where the rapid deployment of First Responders is critical to the preservation of Life.

It is VITAL that each branch of Emergency Services is trained in this National standard and they they know what will be expected of them should they be called upon to create a RTF.

This seminar will go over how a RTF is staged, who will be assigned, how they are deployed, what type of environment they will be sent to, and what their duties will be.

Public Safety is dependent upon ALL First Responders being trained in multi-disciplinary responses.
